

Please don't do to radio what you won't do to cable television. Freedom to produce shows including public service programing should not be stiffeled. This is a public service and I PAY FOR IT. If I don't want to hear it or enjoy the other programing provided I will stop my subscription and along with others we would eliminate the programing. Thru public choice.

Thank you for reading and hopefully with open mind and litsening to what the listener want

David Dauble
